

### Remarks

The Examiner has issued the present Office Action, asserting that the Amendment filed on April 11, 2005 did not comply with the requirements of 37 C.F.R. 1.121(c) and 1.173. The present Amendment re-presents the claims to be amended in accordance with 37 C.F.R. 1.173.

The status of all claims presently in the application is as follows: claims 1-18 remain pending; claims 1-11 are original patent claims; claims 12-18 are reissue claims. As the present Amendment addresses an antecedent basis issue, support for the change can be found in the prior version of claim 14. The craft project object referenced at line 8 is the same as the craft project object recited on line 2. No claims have been cancelled from the application.

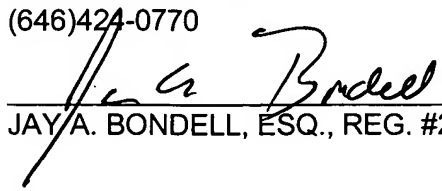

The Examiner has also indicated that the Reissue Declaration originally filed with the application is defective and has requested a supplemental declaration. Submitted herewith is the Supplemental Declaration of Andrew Glanz, the inventor of record.

Respectfully submitted,
